

Corequisite Support

#CoreqWorks

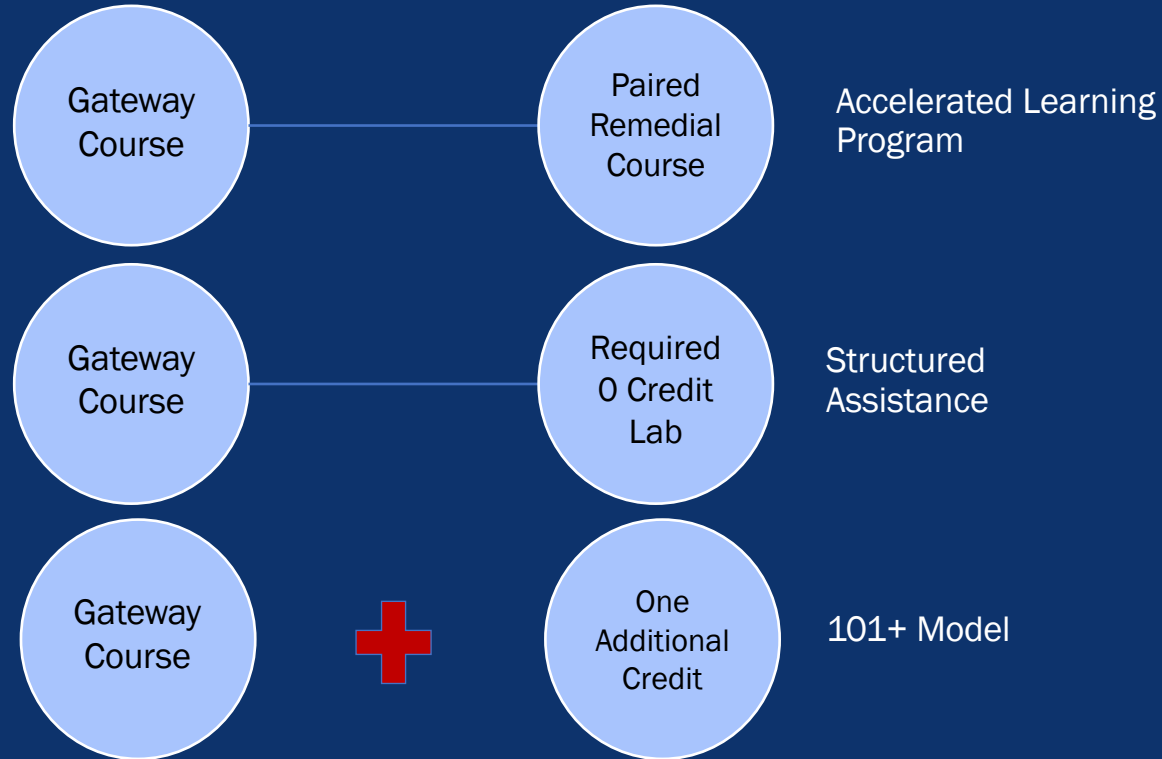

Student attrition
is at the heart of
the matter...

What is a Corequisite Course?

- Developmental students enrolled in college-level, transfer-level course
- Receive academic support “just in time” while enrolled in college-level course through . . .
 - Paired developmental course (one – three credits)
 - Lab
 - Additional credit in college-level course
- Content in Corequisite section focuses on skills essential for success in college-level course
- Mixed cohort of developmental and college-level students in college-level course

MULTIPLE COREQUISITE MODELS

What is NOT a Corequisite Course?

- Adding more time to a remedial course
- Pairing two remedial courses
- Pairing a remedial course with a new or existing non-transferable college-level course that only fulfills elective credit
- Compressed 8 week developmental course followed by 8 week college-level course

The Bottom Line

- Students who pass Corequisites and college-level – **regardless of ACT** – pass almost all their courses
- Students who fail Corequisites and college-level – **regardless of ACT** – fail almost all their courses
- The challenge is not academic readiness, but college readiness
